

#### WARNING

Before installation and commissioning, you must read the safety instructions and warnings carefully and all the warning labels attached to the equipment.

#### IMPORTANT

Failure to comply (even partially) with the instructions given in this manual will invalidate the product warranty and relieves the manufacturer of any responsibility

#### IMPORTANT

The alteration of machine operation, design or the replacement of parts not approved by the manufacturer may void warranties and approvals.

### IMPORTANT

This machine is intended for commercial use only.

## Safety Instructions

#### WARNING

Equipment contains dangerous voltages and can be hazardous if installed or operated incorrectly. Non-compliance with warnings or failure to follow the instructions contained in this manual can result in loss of life, severe personal injury or serious damage to property.

#### Installation

- Use gualified, skilled personnel
- Follow installation instructions
- Connect to correct voltage and supply current
- Provide fully accessible electrical Isolation Switch & water supply valves

#### **Training and Supervision**

- Read and understand the Operating instructions and train all staff
- This appliance must not be operated by children or infirm persons
- internal hazards include live electrics and very hot surfaces
- This appliance is not intended for use as a stepladder

#### **Hot Surfaces**

• Some surfaces may be hot or very hot

#### Chemicals

- Commercial dishwashing detergents are hazardous handle with care . •
- containers and Material Safety Data Sheets
- Use protective eyewear and clothing if decanting containers

#### **Hot Water**

- Do not put hands in wash water which may be over 60°C and contain hazardous caustic detergent
- Rinse water can be over 90°C
- Door safety switches are designed for emergency use only •

#### Cleaning

- Do not hose down the machine or splash water over the exterior
- · Watch for broken glass etc when cleaning the inside of the machine

#### Service/repair

- Under no circumstances the user should attempt to carry out repairs
- · All service/repair work must be carried out by qualified personnel only

· Machine panels must only be removed by suitably gualified and trained personnel

Read and follow the safety information found on the labels of detergent

## **Installation Checklist**

# AL(4) Installation Diagram

### WARNING

Installer must be suitably qualified and ensure compliance with all codes and standards including AS/NZS3500.1.

#### Unpack

• Unpack the machine, check for damage and complete delivery.

#### Positioning

- Place machine on sound waterproof self draining floor and adjust feet to level
- Allow room for adjacent chemical containers

#### Water

- Flush supply lines before connection
- Connect hose supplied to adjacent accessible isolator valve 20 mm 3/4 male
- Flow rate required 15 litres per minute
- Temperature 65°C
- Consumption per cycle 2.4 litres
- Pressure required 200-350 kPa fit limiter above this pressure
- Back Flow Atmospheric Vacuum Breaker
- Potable water quality is required filter or soften if necessary

#### Water Quality Requirements

<b>Hardness</b> min max		<b>ppm</b> 20 100			<b>pH</b> 7 8	
<b>lons</b>	<b>Cl-</b>	<b>SO</b> ₄	<b>Fe</b>	<b>Mn</b>	<b>Cu</b>	<b>Cl</b> ₂
Max mg/L	100	400	0.1	0.5	0.05	0.1

#### Power

• Machine shipped three phase 15 A per phase 415V 50Hz

#### Waste

· Connect drain pump hose supplied to vented upstand or sink waste connection

#### Detergent

- Insert hose into container of commercial dishwasher low foam detergent
- Adjust detergent dosing and prime detergent using the keypad (refer to page 7)
- Use good quality chemicals and regularly check containers

#### **Rinse Fluid**

- Insert hose into container of commercial dishwasher rinse fluid
- Adjust rinse fluid dosing and prime rinse aid using the keypad (refer to page 7)
- Use good quality chemicals and regularly check containers

#### Operation

• Run several cycles, ensure that operator has read and understands instructions

#### **Troubleshooting Installation**

• If machine doesn't fill after switching on power, check & ensure that hot water supply tap is open and water supply pressure is not below specification.

Corner Installation

- (2) wall to front inside corner of wash tank 740
- (3) machine must face left for access to controls
- $\widecheck{(4)}$  allow 300 clearance beneath bench to front for service access
- (5) splashback return no higher than 150
- 6 left side is mirror image

### **ALC Operating Instructions**

#### **START**

- . Turn on at wall
- Ensure the Wash Filter (4) and Pump Inlet Filter (3) are in place
- Ensure the Scrap tray (2) and Filter basket (1) are in place and shut door
- Press Power button for 3 seconds to turn machine on and begin the fill cycle •

#### OPERATION

- Select cycle using Up/Down buttons (use the Heavy cycle whenever possible) .
- Press Start button (once this is Green or Orange) to begin washing .
- Timer counts down to 00 then resets after door is opened •

#### **START BUTTON COLOURS**

- White = machine is filling
- Red = cycle is running
- Image: Book of the second second
- Orange = machine is heating

Purple = door is open

NOTE: The machine may be started while Orange light is on and while rinse water is being heated and the timer will pause at 14 seconds until rinse water is up to 83 degrees

#### SHUT DOWN - EVERY NIGHT

- Select Drain cycle via Up or Down buttons and press Start button
- When Drain cycle is finished after 100 seconds, remove and rinse filter basket (1) and • Scrap tray (2) before replacing back in machine

#### **CLEANING – AT LEAST ONCE A WEEK**

- Remove, rinse and replace:
- Filter basket .
- Scrap tray .
- Pump Inlet filter
- Wash filter .
- Rinse Arms .
- Wash Arm .
- Thumbscrews
- 7 Inspect and clear all jets in the wash and rinse arms .

#### SUGGESTED BEST PRACTICE

- . Pre-rinse Scrape and/or rinse plates and glasses in cool water
- Chemical Use good quality non foaming commercial detergent and drying agent • Do not use domestic detergent which will cause the machine to foam

### **User Programming**

The User Settings menu is accessed by pressing the UP and DOWN keys simultaneously for 5 seconds, the screen should then change to:

Press the POWER button to scroll between settings. Press the UP and DOWN keys to change a specific setting, Press the START button to return to the operator screen.

The programming options are specified in the table below:

User Settings	Factory Sett
Power Save	ON
Detergent Prime	OFF
F-Detergent Injection Time	40
W-Detergent Injection Time	15
RInse Aid Prime	OFF
W-Rinse Aid Time	12
Display Contrast	27

**Power Save** function reduces the rinse temperature setting by 10°C when the machine is idle for 5 minutes or more. The temperature settings return to the set value when door is opened or START/STOP key is pressed.

**Detergent Prime** function allows manual operation of the detergent pump to fill the detergent hose with chemicals. Press UP key to switch the detergent pump on, DOWN key to switch the pump off. If the detergent pump is turned on and left running, it will stop automatically after 1 minute of operation.

**F-Detergent Time** controls the operation time of the detergent pump during the fill of the wash tank. The factory settings for passthrough models - 80 seconds.

**W-Detergent Time** sets the injection time of the detergent pump at the beginning of each wash cycle. Ex-factory setting is 15 seconds as board default.

Rinse Aid Prime function allows manual operation of the rinse aid pump to fill the rinse aid hose with chemicals. Press UP key to switch the rinse aid pump on, DOWN key to switch the pump off. If the rinse aid pump is turned on and left running, it will stop automatically after 1 minute of operation.

W-Rinse Aid Time controls the injection time of the rinse aid peristaltic pump. The rinse aid pump is set to operate at the beginning of each wash cycle. Ex-factory setting is 12 seconds as board default.

ting	Selection
	ON/OFF
	ON/OFF
	0 - 180 sec
	1-30

secs ON/OFF 1-30 10 - 40

# Troubleshooting

If an error message appears on the control display first try turning the machine OFF for 30 seconds and then back ON. If the error message remains call for service.

Issue	Resolution
Not filling	Check water supply is on and door is closed
Cycle does not start	Check door is closed
Wash too long	Check water supply temperature - wash stops at 22 seconds if rinse is still heating
Foaming Wash	Excessive use of rinse fluid and/or low wash temperature can cause foaming
Poor Results	Read and carefully follow the machine installation, operating and care procedures
	All of the following is actually in the instructions on previous pages of the manual
	Pre-scrap and pre-rinse washware
	Do not overload dishracks - avoid overlap of plates, wash cutlery unsorted, handles up
	Use quality low foam detergent and rinse fluid - check containers and adjustment
	Use heavy cycle - baked on soil requires pre-scraping and/or pre-soaking
	Remove and check wash & rinse arms & jets are clean and rotating freely
	If plates are not pre-rinsed wash water may need changing regularly
	Check wash and rinse temperatures
	Remove rack when cycle ends and leave on the bench a few minutes for drying
