From yeasted products to traditional sourdoughs, retarder provers are an essential element to high quality bakery applications. Manufactured in France to meet the expectation of a wide range of bakery operators, the Pani Clima range of retarder provers is designed to provide simple, consistent results from one day to the next. A simple and intuitive multi-stage controller allows the individual baker to customize his program to achieve the final baked result he and his customers desire. Available in a range of standard sizes as well as custom built options, Pani Clima has a solution to fit within the available space in your bakery.
